01 Specifications

Size	L200*W200*H50MM
LED	SMD 3030 42pcs
Battery	3.7V/4.4AH
Solar Panel	5V/5W
IP Rating	IP68
Color Temperature	3000K/4000K/6000K
Material	Aluminum + PC
Warranty	3 years

02 Overview

The DZ-0808 is a compact solar in-ground light, IP68 rated and walk-over rated (up to 1.5 tonnes). SMD 3030 42pcs LED module behind a tempered glass lens delivers 150 lm/W output, ideal for pathway marking, driveway guidance, and landscape accent lighting.

L200*W200*H50MM stainless steel + PC housing. The 3.7V/4.4AH battery charges during the day via the top-mounted 5V/5W and delivers 8-10 hours of illumination per night. Color temperature selectable (3000K/4000K/6000K).

Common applications: garden pathway markers, driveway edges, plaza floor accents, pool deck lighting, hotel walkway markers, and landscape feature lighting. The flush-mount design eliminates trip hazards and survives pedestrian / light-vehicle traffic.
