01 Specifications

Size	Φ230*180MM
Height	H405/635/865MM
Battery	3.7V/4400mAH
Solar Panel	5V/8W
IP Rating	IP65
Color Temperature	3000K、4000K、6000K
Material	Aluminum + PC
Warranty	3 years

02 Overview

The SG-10 solar garden light brings reliable off-grid illumination to pathways, gardens, courtyards, and landscape features. Pillar head $\Phi 230 \times 180 \text{MM}$; standard pole heights H405/635/865MM. The integrated 5V mono panel and 3.7V/4400mAh lithium battery deliver 8-12 hours of full-brightness output per night.

Selectable color temperature (3000K, 4000K, 6000K) and IP65 die-cast aluminum housing make the SG-10 suitable for coastal, tropical, and temperate climates. No trenching, no wiring, no electrician — install the included pole or wall bracket, switch on at dusk, and the integrated light sensor handles the rest.

Common applications: residential gardens, hotel walkways, park paths, plaza squares, villa courtyards, restaurant terraces, and resort landscaping. OEM color and finish available on request.
