Size	Φ540*H340MM
LED	SMD 3535 150LM/W
Battery	3.2V/45AH
Solar Panel	5V/30W
IP Rating	IP65
Color Temperature	3000K/4000K/6000K
Material	Aluminum + PC
Warranty	3 years

02 Overview

The SG-540 solar yard light is a large-format landscape fixture designed for courtyards, plazas, parking areas, and residential community spaces. SMD 3535 150LM/W LED module delivers 150-180 lm/W typical output, illuminating a wide area from a single 3-5m pole.

Φ540*H340MM die-cast aluminum housing, IP65 rated. The 3.2V/45AH battery and 5V/30W provide 10-12 hours of full-brightness output per night with 2-3 backup days. Color temperature selectable (3000K/4000K/6000K).

Common applications: residential community courtyards, hotel entrances, plaza squares, parking lot perimeter lighting, school grounds, and park areas. The compact round form factor is a popular alternative to traditional bollard-style fixtures.
