## 01 Specifications

|                   |                   |
|-------------------|-------------------|
| Size              | L205*W205*H200MM  |
| Height            | H425/655/885MM    |
| Battery           | 3.7V/4400mAH      |
| Solar Panel       | 5V/8W             |
| IP Rating         | IP65              |
| Color Temperature | 3000K、4000K、6000K |
| Material          | Aluminum + PC     |
| Warranty          | 3 years           |

## 02 Overview

The SG-7 solar garden light brings reliable off-grid illumination to pathways, gardens, courtyards, and landscape features. Pillar head L205\*W205\*H200MM; standard pole heights H425/655/885MM. The integrated 5V mono panel and 3.7V/4400mAH lithium battery deliver 8-12 hours of full-brightness output per night.

Selectable color temperature (3000K、4000K、6000K) and IP65 die-cast aluminum housing make the SG-7 suitable for coastal, tropical, and temperate climates. No trenching, no wiring, no electrician — install the included pole or wall bracket, switch on at dusk, and the integrated light sensor handles the rest.

Common applications: residential gardens, hotel walkways, park paths, plaza squares, villa courtyards, restaurant terraces, and resort landscaping. OEM color and finish available on request.
