### 01 Specifications

|                   |                   |
|-------------------|-------------------|
| Size              | L450*W390*H130MM  |
| LED               | SMD 5050 36pcs    |
| Battery           | 3.2V/30AH         |
| Solar Panel       | 5V/30W            |
| IP Rating         | IP65              |
| Color Temperature | 3000K/4000K/6000K |
| Material          | Aluminum + PC     |
| Warranty          | 3 years           |

### 02 Overview

The TX-36 solar spot light is a high-output outdoor projector designed for landscape and architectural accent lighting. SMD 5050 36pcs LED module with a narrow-beam optic delivers focused illumination for trees, signage, building facades, and landscape features.

The 3.2V/30AH battery and 5V/30W combination provides 8-10 hours of full-brightness output per night with 2-3 backup days. IP65 die-cast aluminum housing, L450\*W390\*H130MM, color temperature selectable (3000K/4000K/6000K).

Common applications: building facade uplighting, sign illumination, flag poles, large tree accents, garden focal points, outdoor art installations. The spike-mount bracket (included) makes ground installation tool-free.
