01 Specifications

Size	L630*W390*H130MM
LED	SMD 5050 48pcs
Battery	3.2V/50AH
Solar Panel	5V/50W
IP Rating	IP65
Color Temperature	3000K/4000K/6000K
Material	Aluminum + PC
Warranty	3 years

02 Overview

The TX-48 solar spot light is a high-output outdoor projector designed for landscape and architectural accent lighting. SMD 5050 48pcs LED module with a narrow-beam optic delivers focused illumination for trees, signage, building facades, and landscape features.

The 3.2V/50AH battery and 5V/50W combination provides 8-10 hours of full-brightness output per night with 2-3 backup days. IP65 die-cast aluminum housing, L630*W390*H130MM, color temperature selectable (3000K/4000K/6000K).

Common applications: building facade uplighting, sign illumination, flag poles, large tree accents, garden focal points, outdoor art installations. The spike-mount bracket (included) makes ground installation tool-free.
